SUMMARY

"I am a Motivated Computer Science student with hands-on experience in frontend web development and proficiency in C++ and Java. Skilled in Data Structures and Object-Oriented Programming, with a proven ability to build responsive, user-friendly interfaces. Seeking an internship or entry-level role to apply technical expertise, solve real-world challenges, and contribute to innovative projects while gaining valuable industry experience."

Worked efficiently in team environments during internships and academic projects.

Leadership

Demonstrates leadership in group projects and activities.

PROJECTS

Personal Portfolio Website(Self)

<https://maroon-carmelle-11.tiiny.site/>

This project showcases my skills, experience, and projects in an interactive and professional manner.

- Technology Used- HTML, CSS and JavaScript

Library Management System(Self)

Developed a console-based application that allows librarians to manage books and users, issue and return books, and keep track of availability status.

- Technology Used- Core Java

E-Commerce Website(Group)

Developed an online marketplace allowing small farmers to list their produce and connect directly with consumers, ensuring fair pricing and reducing food wastage.

- My Role- Frontend and Database
- Technology Used- HTML, CSS, JS, Django and MYSQL
